

Sales Analysis & Revenue Insights Project

1. Business Problem:

The objective of this analysis is to evaluate sales performance across product categories, cities, and products. The goal is to identify high-performing business areas and provide data-driven insights to improve revenue and business growth.

2. Key Metrics:

- Total Revenue Generated: ₹8,017,428
- Highest Revenue Category: Clothing (₹2,822,518)
- Electronics Revenue: ₹2,678,679
- Home Category Revenue: ₹2,516,231
- Highest Revenue City: Mumbai (₹1,905,350)
- Bangalore Revenue: ₹1,738,707
- Top Revenue-Generating Products:
Table, Smartphone, Headphones, Mixer

3. Sales Analysis:

- Clothing is the highest-performing category with ₹2,822,518 revenue contribution.
- Electronics and Home categories also contribute significant revenue, showing balanced business performance.
- Mumbai is the best-performing city with ₹1,905,350 in revenue, followed by Bangalore.
- Products like Table, Smartphone, Headphones and Mixer generate the highest sales revenue.

4. Key Insights:

Insight 1: Clothing is the Most Profitable Category

Clothing contributes the highest revenue among all categories.

This indicates strong customer demand and profitability.

Insight 2: Mumbai is the Strongest Market

Mumbai generates the highest city-wise revenue.

The city shows high customer purchasing activity.

Insight 3: Top Products Drive Revenue Growth

Table and Smartphone are among the highest revenue-generating products.

Best-selling products significantly impact total revenue.

Insight 4: Revenue is Balanced Across Categories

Revenue contribution from Clothing, Electronics, and Home is relatively balanced.

This reduces dependency on a single category.

5. Recommendations:

1. Increase focus on Clothing products to maximize revenue growth.
2. Expand marketing efforts in Mumbai and Bangalore.
3. Promote top-performing products through offers and campaigns.
4. Improve customer experience and payment convenience.

6. Conclusion:

The analysis shows strong sales performance with total revenue of ₹8,017,428. Clothing is the highest revenue-generating category, while Mumbai is the strongest performing city. High-performing products such as Table and Smartphone contribute significantly to overall revenue. Focusing on top categories, products, and cities can help the business achieve higher growth and profitability.
